WORK EXPERIENCE

Python Developer

Niseva Technologies Pvt Ltd.

09/2019 – Present

Pune

IOT based Startup

Tasks

- Maintain existing applications and design and deliver new applications.
- Develop code fixes and enhancements for inclusion in future code releases and patches.
- Database designing and enhancing.

PERSONAL PROJECTS

Text Recognition using Gestures (01/2020)

- It is one of my Hobby Projects and starts with the basics of Machine Learning. The whole idea is to teach computer to recognise the text that is being gestured.
- This project has various future scopes. Few of them which I personally prefer are:
- Home Automation using silent gestures rather than saying 'Hello Alexa', to not annoy anyone sleeping nearby etc. Also, a computer will understand what you teach it. So this means that if you change the hand gestures with some thing else for ex. Retina gestures, you can totally create a communication system for a paralyzed person.

Incident Management System (IMS) (2018 – 2019)

- Incident Management System is a web application which allows users to report any bugs or issues in their system. Then according to the type of issue, engineers are assigned to that issue and hence issue is resolved.
- This project was a Live Project under Indo-Rama Synthetics(India) Ltd, Nagpur.

EDUCATION

B.E

Rajiv Gandhi College of Engineering and Research

06/2015 – 06/2019

62.41%

Branch

- Computer Science and Engineering

HSC

Kailashpat Singhania High School, CBSE

04/2014 – 04/2015

83.2%

Branch

- PCM + Computer Science

SSC

Kailashpat Singhania High School, CBSE

04/2012 – 04/2013

CGPA - 10

SKILLS

Python

Django

Machine Learning

PostgreSQL

TimescaleDB

Team Leader

Optimistic

Problem Solving

ACHIEVEMENTS

- Designing Head, FORUM (2018 – 2019)
- Magazine Head (2017 – 2018)
- Member in National Service Scheme, RGCER

CERTIFICATES

Web Application Developer (07/2018)

MySQL (06/2019)

INTERNSHIP

• Endeavour Edutech (06/2018 – 07/2018)

Web Application Development.
